

ISOMARK THIXOTROPIC COMPOUNDS

ISOMARK GRADE / (PART NUMBER)	DESCRIPTION AND KEY FEATURES	WORKING LIFE @ 25°C	CURING TIME @ 25°C
<p>T-1 GREY (T-1G) Also available in WHITE (T-1 WHITE)</p>	<p>Fast curing compound. Ideal for cold conditions and when used with backing paper. Specially formulated to give optimum contrast characteristics for comparator microscopy.</p>	<p>30 seconds</p>	<p>2-3 mins.</p>
<p>T-2 GREY (T-2G) Also available in WHITE (T-2 WHITE)</p>	<p>Slower curing version of T1 Grey. Suitable for ambient temperatures above 20°C</p>	<p>3 mins.</p>	<p>10 mins.</p>
<p>T-1 BLACK (T-1B)</p>	<p>Fast curing compound. Ideal for cold conditions and when used with backing paper. Specially formulated for high magnification optical microscopy with incident illumination.</p>	<p>1 min.</p>	<p>5 mins.</p>
<p>T-2 BLACK (T-2B)</p>	<p>Slower curing version of T1 Black. Suitable for ambient temperatures above 20°C</p>	<p>3 mins.</p>	<p>10 mins.</p>
